Scope of accreditation as of 15.10.2019

Testing laboratory for analysis of precious metals alloys

Group of products or materials, field of activity	Principle of measurement ²⁾ (characteristics, measuring ranges, type of test)	Test methods, remarks (national, international standards, in-house test methods)
Gold alloys	Sampling on gold alloys melt	Methods validated according to in-house procedures LEJ.IN.04
	Gold content measurement by cupellation (fire assaying)	Method according to SN / ISO 11426 standard modified and validated internally LEJ.IN.08
Platinum alloys	Sampling on platinum alloys melt	Methods validated according to in-house procedures LEJ.IN.04
	Platinum content measurement by WD-XRF	Method validated according to in-house procedure LEJ.IN.15

Abbreviation	Signification
WD-XRF	wavelength dispersive X-Ray fluorescence
